INTRODUCTION

PACE Academy's Board of Directors, faculty, staff, students, parents, and community leaders are committed to providing the safest environment possible. We have prepared the plan and procedures for Crisis Management/ Prevention to provide a framework for the school during school crisis situations. It is further designed to assist the staff in following procedures with the greatest possible speed and safety. Regardless of the prescribed procedures, training, and instruction, we acknowledge that the sound judgment of the administration and staff is an integral part of safety management. Being prepared through planning and training is the best insurance a school can have to offset the ill effects of unexpected events.

All school personnel should thoroughly familiarize themselves with the contents of this emergency plan and should have it in their possession during any school emergency situations.

I understand that safety is of utmost importance at PACE Academy.

I have read this handbook in its entirety and agree to adhere to its requirements.

Crisis Management Planning

Definitions

1. **Crisis Management** is that part of a school's approach to safety which focuses more narrowly on a time-limited, problem-focused intervention to identify, confront and resolve the crisis, restore equilibrium and support appropriate adaptive responses.
2. **Crises** shall include but not be limited to situations involving the death of a student, staff member, or a member of a student's immediate family by suicide, substance abuse, illness, or accident. The school director shall have the authority to determine what is a crisis incident and to convene the Crisis Management Team.
3. **Critical Incidents** shall include situations involving threats of harm to students, personnel, or facilities. Critical incidents include but are not limited to natural disasters, fire, use of weapons/explosives, and the taking of hostages. Such incidents require an interagency response involving law enforcement and/or emergency services agencies.

The purpose of Crisis Intervention is to:

- Ensure that traumatic events are not ignored.
- Provide assistance to those students, staff and parents in dealing with emotional responses usually associated with traumatic events.
- Decrease the spread of rumors by sharing facts.
- Provide support and counseling to minimize the effects of the traumatic event within the school.

Crisis Levels

LEVEL 1: In-house, requiring the intervention of one staff person.

LEVEL 2: In-house, requiring the intervention of more than one staff person.

LEVEL 3: Involving the need for outside interventions.

Safety Emergency Team (SET)

Delayed Opening, Early Dismissal or Cancellations

Due to weather conditions, the school may call a delayed opening or cancel school. A Delayed Opening or Cancellation will be announced on the local television and/or radio stations as well as school social media and communication apps.

Normally, the decision is not made until the early morning hours of the day in question. The school has a telephone tree to contact employees. A two-hour delay means that staff reports exactly two hours after their regular scheduled report time. Students must report two hours after the tardy bell.

In the event that there is an emergency, such as the threat of severe weather or building issue that requires evacuation (pipe burst, power outage...), parents will be immediately notified through the school designated communication app. Additional communication will take place using approved social media sites such as Facebook or Twitter.

Steps for Determining Delays or Closing

1. Administrative decision regarding closings and/or delays will be made by 6:00 AM if overnight or early morning conditions warrant. **(We closely monitor Richland County School District 1, but PACE will make its own decision.)**

2. Parents will be notified via school designated communication app, approved social media, and local TV and radio stations. Radio and television stations announce **ONLY** closings or delays.
3. Media sources will be contacted and informed of decision – announcement to public should follow.
4. Media announcement will outline attendance/employment criteria (i.e., “two-hour delay,” “in-service day,” etc.)
5. If no public media announcement is made, the school will operate on regular schedule.

If staff are unable to attend school because of conditions in their neighborhood, they must notify the Executive Director or Academic Director as early as possible.

Steps for Determining Early Dismissal

1. Administration will be notified of the district’s weather conditions and possibility of early dismissal.
2. If/when early dismissal is probable, the Executive Director will be advised. The Executive Director and Academic Director will work on contacting parents to get transportation taken care of.
3. Area media will be contacted to facilitate early dismissal.
4. School plan will be followed as stated below:

PACE School Early Dismissal Plan

1. Teachers will be notified as soon as the decision has been made.
2. A call home message will be sent through the school designated communication app after teachers and staff are notified.
3. Students will be allowed to call home for a ride if they need to using classroom phones and/or office phones.
4. Students will be dismissed to their parents and/or guardians or approved adults **ONLY**.
5. Written authorization should be obtained for students who are to go to a location other than their home if school is dismissed early.
6. Students who do not have transportation will be kept in the front office area until they are picked up by their parents and/or guardians.
7. The Executive Director and Academic Director will decide and communicate together when to dismiss the faculty and staff.

Severe Inclement Weather: General

The Executive Director and Academic Director will:

- monitor Emergency Radio and weather alert radio for conditions and announcements.
- advise staff and students of possibility of precautionary action.
- follow the applicable school plan.

- make the decision to bring all personnel and students to predetermined areas as determined by the type of severe weather (Tornado, thunderstorm, etc.).
- notify staff members who are off campus (professional development, field trips, etc.)
- make the decision to initiate appropriate warning signal if necessary (i.e. WEATHER ALERT if tornado).
- Instruct all faculty and staff personnel to follow school plan for appropriate warning signal.

Emergency Drill Schedule

Time is crucial during an emergency. Drills must emulate this urgency. Drills are timed by two factors: evacuation and accountability for every person present.

The following are guidelines for conducting periodic drills:

- Students will be briefed monthly regarding evacuation procedures.
- PACE will conduct a fire drill ONCE A MONTH from August through May or as mandated by the Fire Marshall.
 - At least THREE fire drills will be unannounced.
 - All other drills will be scheduled every month at different times.
- Periodic drills for all other emergencies shall be conducted according to best practice.

Emergency Safety Procedures

The Emergency Management Plan will be implemented immediately when any codes are communicated. When there is no apparent, immediate danger to students or staff, an announcement may be more appropriate.

Clear, specific codes will ensure prompt, consistent notification regarding hazardous conditions. A copy of these codes will be made available to all employees, including substitutes and volunteers.

Lockdowns

Lockdowns are used when there is danger in or near the school and students and/or staff require protection. A lockdown involves securing doors and windows in an attempt to keep intruders from gaining access to staff and students.

SOFT LOCKDOWN

Indicates a situation of moderate potential danger exists in the community.

Used if there is not an immediate danger to staff/students. A soft lockdown can be used if a suspicious person has been seen near the school, a police chase occurs in the area, or any dangerous event in our community.

Used if there is an immediate danger inside the school or on the school grounds. A hard lockdown could be used if someone is brandishing a firearm on school grounds or other serious actions that could harm staff or students. In the event an emergency situation occurs, the following actions, recommended by the Sheriff's Department, will be taken:

1. An announcement will be made across the school. NOTE: Any adult in the building can place the school into hard lockdown **"The school is in a HARD LOCKDOWN situation."**
2. This announcement means all faculty and staff assume lockdown security position immediately. All staff will check hallways and pull in any students into a room or go to the nearest room. **All classroom doors should be locked.**
3. Any students, teachers, or staff caught in the hall are to clear the hall immediately.
4. Close windows and shades, turn off lights, keep students calm and silent.
5. Place the students in a position of greatest safety (examples: least visible area/interior wall, lying on the floor). Desks will also be arranged around the students if needed.
6. Upon securing the classroom, the teacher will assume the same position as the students.
7. Classroom doors are not to be opened for anyone for any reason. Law enforcement officials will clear the halls and move to the classrooms when able to do so. Students and teachers will be evacuated once the halls have been cleared.
8. Ignore all announcements and the fire alarm until the lockdown is removed.

9. All students and personnel in the cafeteria or gym area are to move to the music room immediately.
