PACE ACADEMY

Palmetto Achievement Center for Excellence

Student Reading Growth:

Measures	Curriculum-based measures of reading accuracy and reading fluency
Students	62 PACE students in grades 2-4
Dates	Data collection took place in August 2022 and February 2023

Summary:

In six months, students at PACE showed growth on measures of word reading accuracy, word reading fluency, and text (passage) fluency:

- Word accuracy increased 94%, with students reading 15 more words accurately on average
- Word reading fluency increased 137% with students reading 10 more words on average (on 20 sec. timed task)
- Text (passage) reading fluency increased 47%, with students reading 18 more WCPM on average
- Irregular word reading accuracy increased 17%, with students reading two more words accurately on average
- Irregular word reading fluency increased 33%, with students reading three more words on average
